THIS WEEK!

REFORM Metrac

Light. Manoeuvrable. Proven. The range with outstanding advantages.

- Big 4 cylinder diesel engines
- Multi-function lever for maximum operating convenience
- Differential locks with 100 % locking action
- Switchable all wheel drive
- **Available gears:** Stepless hydrostatic or gearbox with fine gear graduation and creep speeds
- All wheel steering switchable to front wheel, rear wheel, crab and 4-wheel steering

REFORM Metrac

The all-rounder for the steepest of slopes.

Use of specially matched implements ensures a high level of performance and economy, An outstanding ability to cope with slopes and difficult terrain without damaging the soil, high manoeuvrability, stability and low centre of gravity ensure safe working conditions.

REFORM Metrac

You choose;

Gearbox or hydrostatic drive.

REFORM Metrac

The climber.

Uphill on gentle paws.

The tried and tested REFORM all-wheel steering all four forms of steering can be selected by pressing a button, even while travelling one fingertip automatically changes from front-wheel to all-wheel steering and vice versa;

- Front and rear wheels run precisely on the same track
- Absolutely distortion free traction from all four wheels
- Intelligent steering sensors on the steering joints report the wheel positioning to the automatic steering system. Steering can then be switched from front-wheel to all-wheel and back fully automatically
- Crab steering: maximum safety by shifting the centre of gravity, each wheel runs in its own track

The multifunction lever keeps you in control!

With the H models you can use the multifunction driving lever smoothly to select the correct travelling speed and direction, irrespective of the engine speed and under load. With the G models you can use the multifunction lever to select forward and reverse gear. With the switches on the multifunction lever you can operate the most used hydraulic functions with unrivalled convenience

REFORM Metrac

Versatility.

Multi-talented for every purpose.

Take advantage of the Metrac range's high-quality, intelligent technology, functional superiority and economy in mountainous regions, in landscaping and in many other areas.

REFORM Metrac

The Cockpit.

Take a seat and look forward to your work.

The wide entrance door and roomy interior make the Metrac a comfortable place to work, however demanding you are. The tinted windows reduce heat from the sun and provide excellent all round vision. The body frame with operator's platform has a vibration insulated cabin. All operating elements are arranged ergonomically and clearly in functional groups - all within the driver's reach, so that you've got everything safely under control. The comfortable seat is adjustable for distance and height, so you can relax as you work. Comfortable cabin with heating and air conditioning. (Optional) Clear dials and warning lights provides you with immediate information on the current operating status. You can give all your attention to the work in hand.

REFORM - your top supplier.

Acknowledged specialist since 1910 for local authority equipment, intensive lawn care, hill agriculture, horticulture, landscaping and seeding machinery. Innovative high quality solutions help maintain a worthwhile environment. REFORM is the specialist for steep slopes, which means that you can enjoy maximum confidence when working in extreme conditions. REFORM implements are distinguished by their compact construction, low weight and excellent soil protection. The tried and tested REFORM all wheel drive provides outstanding manoeuvrability in very tight spaces. REFORM is your supplier for all year round use and has tailor made solutions to meet your needs.

Stocker-Crew's entire range of products can be viewed at www.stockercrew.com.au.
