THIS WEEK!

June 16th - 18th, Bruxner Highway, Casino

Primex is one of Australia's most diverse and fastest growing field days. The annual event is located at Casino on the Northern Coastal Plains of New South Wales. A trade specific event, with 25 years experience, showcasing over 930 companies to over 60,000 visitors (regionally, nationally and internationally).

Come see us at site "P23".

Noremat Professional Reach Mowers

Noremat are leading the World in innovation, strength and user friendly Reach Mower design. From the Visiobra System to the 5 point axle mounting system, Noremat are setting the benchmark in professional side arm design and manufacture. Noremat reach mowers in either straight arm or the Visiobra System have many advantages for the owner / operator over others in the market place.

Vandaele Wood Chippers & Stump Grinders

Vandaele is a manufacturer of quality machines for maintenance of green areas. For more than 20 years, Vandaele have offered a large range of wood chippers, specifically aimed to meet with the demands of the professional user market. The complete range offers many models and choices to suit any application.

Reform Municipal Tractors

Municipal tool carrying tractors designed for steep banks/hillside mowing and soft ground conditions. These hillside tractors are ideal for mowing embankments, steep terrain, open areas such as golf courses and general green area maintenance.

Orsi Flail Mowers

One of the world's leading manufacturers of reach mowers, flail mowers, rotary mowers, offset mowers, forestry mowers, stump grinders, excavator and skid-steer mounted mowers and shredders. Orsi manufacture in Italy and export worldwide and have a great association with Stocker-Crew for the Australian and New Zealand markets.

Several Orsi Flail Mowers on display at Primex 2011

Zuidberg Front Systems

In the current world climate of ever increasing overheads and diminishing bottom lines, Ag Tractor owners and operators need to be utilising their machinery to its fullest. This is where Zuidberg Front Linkage and PTO kits offer the flexibility to use the front, rear or both ends of the tractor at the same time, therefore in a lot of cases eliminating the need for additional tractors.

The Cleanfix Switching Fan

Modern machines demand enhanced cooling due to increased requirements concerning emissions as well as greater operator comfort. This requires a higher airflow, which leads to greater dust and dirt accumulation that clog radiators and air intake screens. The patented Cleanfix system cleans air-intake screens and the dirty radiators by switching the air flow direction and therefore increasing productivity and saving fuel costs.

The New Gyrat Ezi-Edger

Wow, did you know that you could do your path or road edges with your tractor? The Ezi-Edger is capable of double edging pathways simultaneously. Its Independent hydraulic control for each edger assembly gives the operator the flexibility for single or double edging at any point along the path way.

Schell Hydraulic Drive Finishing Mowers

The ultimate in finishing mowers, designed for mounting on the front of the tractor to offer the operator complete ease of control as well as quality of cut. The Schell finishing mower offers 5-7 individual hydraulically driven cutter decks coupled together to offer the ultimate in ground contour following mowing.

Schell FSM3000HG cutter deck on display at Primex 2011

IDIOT of the WEEK!
