THIS WEEK!

ORSI WGR2000SX THE CONTRACTORS CHOICE

Orsi Group manufacture high quality machinery at their state of the art manufacturing facility in Italy. Stocker-Crew import and distribute Orsi Group products throughout Australia.

The Orsi WGR2000SX flail mower is built by Orsi Group in consultation with Stocker-Crew to ensure that our road conditions have been taken into account in the design and features.

The Orsi WGR2000SX can be mounted on the front or the rear of the tractor, your choice. The WGR2000SX comes with a through shaft 1000rpm freewheeling gearbox and an "A" frame double mounting system that allows you to drive up to the mulcher for front mounting or reverse to it for rear mounting.

Hydraulic side-shift to the left and a right-hand belt cover/drive allows you to move the mulcher outside the wheel line of the tractor to get right up to obstacles like trees, guardrails etc.

Chain guard safety protection ensures that you are working as safe as possible in the roadside, parks or on farm environment.

Orsi WGR2000SX at a glance:

- For tractors from 60hp
- For material to around 100mm diameter
- Overall width 2.22m
- Working width 2.01m
- Overall weight 695Kg
- 1000rpm freewheeling gearbox
- Integrated side skids with bolt on wear skids
- Rear height adjustable roller
- Automatic belt tensioner (4 belt drive)
- Cat II linkage mount

Join councils, other government departments, contractors and farmers across Australia; working hard and safely with an Orsi WGR2000SX.
