### THIS WEEK!

## REFORM Cutter 100

### The powerful professional flail mower

Thanks to the continuously variable hydrostatic travel drive in the Reform Cutter 100 you can set your speed to match working conditions, without letting go of the handle bar, via the smooth finger rake on the mechanical travelling adjustment or by using the convenient rocker switch on the electro hydraulic travel drive adjustment. This means that you can change from forward to reverse without interrupting the travel drive. This is useful, especially on rough and difficult terrain. Fine tuneable, mechanically operated hydraulic steering valves ensure perfect steering of the machine in every situation.

The cutting height adjustment is via the amply dimensioned front wheels, with optional rigidity assembly.

The flail mower with a working width of 100 cm is equipped with a hefty rotor shaft with 6 mm Y blades and a robust, spacious flail hood. This facilitates a high throughput and fine chopping. The height adjustment, which ranges from 45 to 100 cm, is operated via the front wheels.

An ergonomic and clearly laid out work station. The controls are ideally located and easy to operate. The handle bar is of course vertically and laterally adjustable without tools. This means that the controls are ergonomically adjustable, even in ditches or alongside obstacles.

There is an optional rigidity assembly available, which ensures that the front wheels can only be steered straight ahead in the contour line or in the direction of slope. The Reform Cutter 100 can be equipped with the high grip 5.0-10 AS tyres or the soil friendly 21x11.00-8 Terra tyres.

Alongside the smooth implement clutch, the Cutter 100's drive unit is also equipped with a quick stop device, which brings the rotor shaft to an immediate standstill as soon as the drive is switched off, ensuring high operational safety. The flail unit with 6mm Y blades has been constructed for professional use and can cope with the thickest vegetation.

## Demonstrator Clearance

**Demonstration machine used twice and presents as new.**

Reform Cutter 100	\$19,900.00
Twin rubber 5.0 - 10 extra wheels	\$991.60
Steel cage wheels	<u>\$1,241.00</u>
	RRP \$22,132.60

**Demonstrator Clearance Discount 47%**      **\$10,402.32**

**1 Only Available at**      **\$11,730.00 + GST**

Contact Stocker-Crew for further information.
