

525M

Professional vacuum unit on carriage

The 525M has the same specifications as the 521M, but is built on a carriage for fast traffic. Simple (dis-)connecting to a towing car, the 525M is quickly deployable.

The design is focussed on a long life. The indirectly driven turbine with V-belts protect the engine for sudden blockings. Turbine and housing are made of durable materials. Also the 525M will go for years.

Specifications	525M
Driving	
Motor	Honda, air cooled, GX390, 4-stroke
Starting system	Recoil starter
Nominal power (according CE)	9,5/13,0 kW/HP
Fuel	Petrol, unleaded
Tank capacity	6,5 l.
Frame	
Material	Steel box profile
Axle	Torsion shaft for fast traffic
Wheels/tyres	Radial tyres 185 R 13
Turbine	
Construction turbine	8 mm. hardox
Construction turbine housing	6 mm. hardox
Suction hose	
Material	Reinforced UV-resistant polyurethane
Dimensions	Heavy duty, Length 5,0 m., Ø 200 mm
Air outlet	
Type	360° turnable with flap
Dimensions	Ø 150 mm
Dimensions	
Weight	310 kg
Length	140 cm
Width	180 cm
Height	190 cm
Noise level	
At user (LpA)	91,2 dB(A)
