

B10P

Professional light weight push blower

The turbine is made of light weight aluminium, the housing and frame are made of steel. Therefore the B10P is a sturdy though light weight blower.

With mitred wheels the B10P adapts the back pressure of the turbine and no forces are felt in the push bar. The turbine is designed to produce less noise as possible. Also a height adjustable push bar is standard.

Specifications

B10P

Driving

Motor	Honda, air cooled, GX270, 4-stroke
Starting system	Recoil starter
Nominal power (according CE)	9,0/6,5 HP/kW
Fuel	Petrol, unleaded
Tank capacity	5,3 l.

Frame

Material	Steel box profile
Axle	Splitted steel axle
Wheels/tyres	Mitred, air tyres 4.00x8

Turbine

Construction turbine	Die cast aluminium, single sided open
Construction turbine housing	Sheet steel
Intake	Single sided
Air control	Vertical and frontal air guidance flap Vertical flap remotely operated

Dimensions

Weight	78 kg
Length	73 cm
Width	68 cm
Height	78 cm

Noise level

At user (LpA)	86 dB(A)
